GUIDELINES FOR HANDLING AND DISPLAY OF PICTURES

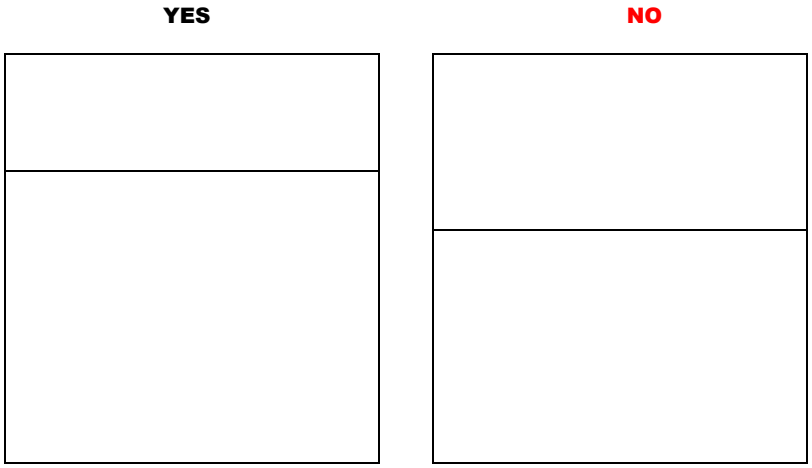
AT THE ADAS EXHIBITION IN THE APC

Use D-rings instead of eyelets - less risk of damage to other pictures.

YES ☐ **NO!** ✕

D-ring **Eyelet**

Attach the D-rings about ¼ from top – the picture will hang flatter against our screens so it will be better illuminated.



Tie the picture cord TIGHT - for the same reason

Put pictures face-to-face or back-to-back when carrying or storing them – less risk of damage.

Place pastel paintings either flat (face-up) or upright (top at top) when carrying or storing – less risk of pastel flakes on glass or mount.
